Laura E. Berk

Infants and Children: Prenatal through Middle Childhood (With Interactive Companion Website) (4th Edition) Laura E. Berk

This shortened paperbound version of *Infants, Children, and Adolescents, Fourth Edition*, covers the prenatal through middle childhood years (through age 10). Containing the complete chapters 1-13 of Laura Berk's full-length text, *Infants and Children: Prenatal Through Middle Childhood*, brings Berk's trademark scholarship and readability to the subject of chronological child development. With a heightened emphasis on the interplay between biology and environment, and stronger focus on education (both at home and at school) and social policy as critical pieces of the dynamic system in which the child develops, Berk pays meticulous attention to the most recent scholarship in the field. Creating stronger connections between domains of development, Berk has expanded her coverage of culture, enhanced attention to emotional development, and updated cognitive, biological, and social development. In her signature storytelling style, Berk creates a "cast of characters" for each unit based on real children and families, artfully using their "stories" to illustrate the sequence and processes of child development and applications of theory and research.
