Reactions of Coordinated Ligands: Volume 2

Reactions of Coordinated Ligands: Volume 2

This, the second and final volume of Reactions of Coordinated Ligands, describes the chemistry of ligands bound through non-carbon atoms, and of coordinated carbon dioxide. As before, emphasis is on the underlying mechanisms, which provide a unity of understanding for superficially disparate processes. The wide range of topics covered illustrates well both the versatility and the usefulness of coordination chemistry in the controlled activation of ligands. Looking to the future, carbon dioxide is the feedstock of last resort. The homogeneous reduction of dinitrogen to ammonia now seems unlikely to replace the Haber process, but solution reactions also lead to more complex, varied, and valuable products. Nitrogen monoxide, a "non innocent" ligand, impinges as pollutant and reagent. Its rich chemistry stems from its linked roles as three-electron donor, and as extremely powerful π -acceptor. In the hydrolysis and condensation of complexed amides, esters etc. , metals act both as templates and as tunable and poly functional Lewis acids. Here the control of hydrophobic and steric interactions begins to model the subtle mechanisms of biological specificity. Finally, phosphorus and sulfur are important both as ligand atoms in themselves, and as anchors for other functionalities. I would like to thank all those who have been involved in the writing and production of this work, and also my colleagues old and new, at Glasgow and the University of North Texas, for their support. Paul S. Braterman v CONTENTS 1. Reactions of Coordinated Carbon Dioxide 1 J. D. Miller 1.

From reader reviews:

Robert Penrose:

Do you among people who can't read satisfying if the sentence chained inside straightway, hold on guys this specific aren't like that. This Reactions of Coordinated Ligands: Volume 2 book is readable by you who hate those perfect word style. You will find the info here are arrange for enjoyable reading experience without leaving actually decrease the knowledge that want to deliver to you. The writer involving Reactions of Coordinated Ligands: Volume 2 content conveys the thought easily to understand by lots of people. The printed and e-book are not different in the articles but it just different in the form of it. So , do you nevertheless thinking Reactions of Coordinated Ligands: Volume 2 is not loveable to be your top list reading book?

Karena Figueroa:

This book untitled Reactions of Coordinated Ligands: Volume 2 to be one of several books in which best seller in this year, here is because when you read this e-book you can get a lot of benefit upon it. You will easily to buy this specific book in the book retail store or you can order it by using online. The publisher on this book sells the e-book too. It makes you more readily to read this book, because you can read this book in your Touch screen phone. So there is no reason to you to past this guide from your list.

Jonathan Sanders:

Is it you actually who having spare time subsequently spend it whole day by means of watching television programs or just laying on the bed? Do you need something totally new? This Reactions of Coordinated Ligands: Volume 2 can be the response, oh how comes? It's a book you know. You are therefore out of date, spending your extra time by reading in this fresh era is common not a nerd activity. So what these textbooks have than the others?

Debra Treat:

A lot of book has printed but it differs from the others. You can get it by online on social media. You can choose the top book for you, science, comic, novel, or whatever by simply searching from it. It is called of book Reactions of Coordinated Ligands: Volume 2. Contain your knowledge by it. Without making the printed book, it may add your knowledge and make an individual happier to read. It is most essential that, you must aware about book. It can bring you from one spot to other place.
