Pro MSMQ: Microsoft Message Queue Programming Arohi Redkar, Ken Rabold, Richard Costall, Scot Boyd, Carlos Walzer

This will be the only book on the market with in-depth coverage of using Message Queuing from .NET code – it won't just be the number one in its category; it will be the only book in its category.

* The only book targeted at developers with in-depth coverage of MSMQ 3.0 and MSMQ triggers

* The only MSMQ book that covers working with the PocketPC

Covers VB, C++, and C# and will appeal to all developers using MSMQ, no matter what language they use

Highlights problems such as the lack of support for the System. Messaging namespace in the .NET Compact Framework and shows how to get around the problems

From reader reviews:

Whitney Obrien:

The feeling that you get from Pro MSMQ: Microsoft Message Queue Programming is a more deep you digging the information that hide inside the words the more you get enthusiastic about reading it. It doesn't mean that this book is hard to recognise but Pro MSMQ: Microsoft Message Queue Programming giving you thrill feeling of reading. The author conveys their point in selected way that can be understood by means of anyone who read this because the author of this book is well-known enough. This particular book also makes your own vocabulary increase well. So it is easy to understand then can go to you, both in printed or e-book style are available. We suggest you for having that Pro MSMQ: Microsoft Message Queue Programming instantly.

Johnny Allen:

This Pro MSMQ: Microsoft Message Queue Programming is brand-new way for you who has intense curiosity to look for some information since it relief your hunger of information. Getting deeper you onto it getting knowledge more you know or you who still having little bit of digest in reading this Pro MSMQ: Microsoft Message Queue Programming can be the light food for you because the information inside this specific book is easy to get by means of anyone. These books build itself in the form which is reachable by anyone, yeah I mean in the e-book application form. People who think that in guide form make them feel drowsy even dizzy this guide is the answer. So there is not any in reading a e-book especially this one. You can find actually looking for. It should be here for a person. So , don't miss the idea! Just read this e-book sort for your better life as well as knowledge.

Karen Plum:

Do you like reading a publication? Confuse to looking for your favorite book? Or your book seemed to be rare? Why so many concern for the book? But any people feel that they enjoy intended for reading. Some people likes reading, not only science book but also novel and Pro MSMQ: Microsoft Message Queue Programming or perhaps others sources were given information for you. After you know how the truly great a book, you feel need to read more and more. Science e-book was created for teacher or perhaps students especially. Those ebooks are helping them to bring their knowledge. In additional case, beside science guide, any other book likes Pro MSMQ: Microsoft Message Queue Programming to make your spare time a lot more colorful. Many types of book like here.

Irving Tarkington:

As a college student exactly feel bored in order to reading. If their teacher asked them to go to the library or even make summary for some publication, they are complained. Just small students that has reading's spirit or real their leisure activity. They just do what the instructor want, like asked to the library. They go to at this time there but nothing reading very seriously. Any students feel that looking at is not important, boring along

with can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Pro MSMQ: Microsoft Message Queue Programming can make you feel more interested to read.
