When I was diagnosed with prostate cancer I knew little of cancer. I felt terrified from the horror stories I'd heard, and found myself looking at the stark reality of my own mortality. It's not a good feeling, when you're forced to peer into the abyss. As I started researching, hope began to arise. The more I learned, the more I understood I have options and I can rise above this condition. Then came the thought, could I share my knowledge to ease others' fears? Could I jump-start their healing process so they could hit the ground running, without wasting time, feeling more confident about next decisions? And what if, there were ways to even prevent the pain and expense of prostate cancer? What a gift it would be to help others to avoid the challenges I'm facing. With these thoughts, Release Prostate Cancer Now! was born. Release Prostate Cancer Now! is not only for men. When a man dies of prostate cancer, often his widow and children are left behind to face devastating loss and exorbitant medical costs. It's time we put an end to all this pain. Focused on prostate cancer, yet applicable to most forms of cancer for men and women, this book will put you light years ahead of those trying to make minimally informed life-altering decisions. The book begins with one simple question, "What if there exists a way to avoid cancer in your lifetime?" and then proceeds with positive solutions for healing.
