A team of renowned scholar-teachers created *The Making of the West* to address three of the biggest challenges teachers of western civilization face — demonstrating how the West has been an evolving entity shaped by global influences; conveying the dynamic interaction of social, political, cultural, and economic history in shaping events over time; and revealing the historical roots of developments in today's world. Through a ground-breaking chronological synthesis, the narrative deftly weaves together the main events, people, and themes of a specific time, thus providing a balanced, easy-to-follow story line. New aids to guide student reading and enhancements to the book's organization bring the essence of western history to the fore in the most accessible edition yet.
