Steven Boyett transports you into the sort of alternative universes and avid reader or Trekker would love:

- a Clancy-like realm where the *Enterprise* crew mobilizes to fix Captain Picard's broken watch
- a Heller-esque domain where you can only get out of Starfleet if you're crazy--and, if you want to get out of Starfleet, you're clearly not crazy
- a Collins-ish netherworld where Counselor Demanda Troi sleeps and shops her way around the galaxy
- a Melvillean place where Moby Trek lies in wait

...and many more.

Boldly go where no one has gone before with this stellar combination of high art and high comedy.
