This beautifully illustrated reference provides the critical insights needed to treat a variety of hair loss problems, ranging from male pattern baldness and female alopecia to scalp scars and sideburn irregularities. Twenty-one comprehensive chapters provide a total approach to evaluation and treatment. Topics covered include basic techniques for treating male and female hair loss, as well as special applications for camouflaging scalp scars; filling in sideburns; restoring and enhancing eyebrows, mustaches, beards, and eyelashes; and treating burn alopecia. Combined face lift and hair transplantation techniques, as well as strategies for reoperation, are also highlighted.
