The only volume on higher education law written specifically for nursing faculty, this volume imparts the basic foundations of the legal, professional, and ethical issues that concern faculty on a daily basis. It clearly defines the legal rights of students, professors, and educational institutions along with the case laws supporting those rights. Each chapter contains a vivid legal scenario, related legal principles and theoretical foundations, and critical thinking questions. Written by an author who is both a nurse educator and attorney, the volume emphasizes sound decision making so that readers can successfully navigate the complex legal issues confronting them in the faculty role.

Chapters address the general legal rights of students with expanded content on the interplay with social media, rights of faculty regarding freedom of speech, faculty protection against lawsuits, faculty and the employment relationship, faculty relations, the teaching and scholarship roles of faculty, the service and clinical practice role of faculty, and ethical considerations for patients, students, and faculty in education environments.
