Before Anne After (Time Travel Duo) (Volume 1) James Paddock

Through a series of small errors and oversights – a missed phone message, an unlocked high-security door, a lax in protocol, a falling purse – eight-month pregnant Annabelle Waring unknowingly stumbles into her husband's time-travel experiment. She awakens in a 1943 Charleston Navy Shipyard barracks with no memory of the event. Her existence and her sanity become questionable; if not for her newborn baby and a Charleston, South Carolina police officer, she would certainly have checked herself into the funny farm. Her doctor, alias German spy, learns before she does that she is not only a time-traveler, but a highly educated woman in the field of nuclear science and World War II history. When she finally discovers her own secret, Anne must strive to get both her and her infant daughter home, even at the risk to her own life.
