## Pattern Recognition, Machine Intelligence and Biometrics

"Pattern Recognition, Machine Intelligence and Biometrics" covers the most recent developments in Pattern Recognition and its applications, using artificial intelligence technologies within an increasingly critical field. It covers topics such as: image analysis and fingerprint recognition; facial expressions and emotions; handwriting and signatures; iris recognition; hand-palm gestures; and multimodal based research. The applications span many fields, from engineering, scientific studies and experiments, to biomedical and diagnostic applications, to personal identification and homeland security. In addition, computer modeling and simulations of human behaviors are addressed in this collection of 31 chapters by top-ranked professionals from all over the world in the field of PR/AI/Biometrics.

The book is intended for researchers and graduate students in Computer and Information Science, and in Communication and Control Engineering.

Dr. Patrick S. P. Wang is a Professor Emeritus at the College of Computer and Information Science, Northeastern University, USA, Zijiang Chair of ECNU, Shanghai, and NSC Visiting Chair Professor of NTUST, Taipei.

Because start from on pre-school until university need that Pattern Recognition, Machine Intelligence and Biometrics to read.

#### **Raymond Striegel:**

The experience that you get from Pattern Recognition, Machine Intelligence and Biometrics may be the more deep you digging the information that hide within the words the more you get considering reading it. It does not mean that this book is hard to know but Pattern Recognition, Machine Intelligence and Biometrics giving you excitement feeling of reading. The writer conveys their point in particular way that can be understood by means of anyone who read the idea because the author of this e-book is well-known enough. That book also makes your vocabulary increase well. So it is easy to understand then can go to you, both in printed or e-book style are available. We recommend you for having this kind of Pattern Recognition, Machine Intelligence and Biometrics instantly.

#### **Lucy Nelson:**

Can you one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Aim to pick one book that you just dont know the inside because don't assess book by its handle may doesn't work at this point is difficult job because you are afraid that the inside maybe not because fantastic as in the outside appearance likes. Maybe you answer is usually Pattern Recognition, Machine Intelligence and Biometrics why because the fantastic cover that make you consider regarding the content will not disappoint a person. The inside or content is fantastic as the outside or cover. Your reading sixth sense will directly make suggestions to pick up this book.
