## The Best of Corwin: Differentiated Instruction in Literacy, Math, and Science

### *Content-specific DI guidance from the best minds in education*

In this collection, current research on the most effective differentiation practices for differentiating instruction in literacy, mathematics, and science is brought alive through the many strategies and examples. Topics covered include:

- Reading and writing: A comprehensive array of models for differentiating reading instruction; gradual release of responsibility to accelerate progress; and multi-tiered writing instruction
- Mathematics: Support for both low- and high-achieving students, including interventions and challenges, and the implementation of RTI in math instruction
- Science: Models and methods for increasing student achievement through differentiated science inquiry
