Since it was first published in 1988, "Medical Decision Making" has become the world-wide standard textbook for medical decision making. Written to meet the needs of medical students and experienced clinicians alike, this book is a clearly presented, step-by-step guide to understanding how, through the processes of decision analysis, a physician can reach valid, reasoned conclusions about medical treatment despite imperfect information about the patient. The focus of "Medical Decision Making" is on estimating probability, measuring the inaccuracy of clinical data, and interpreting new information, then making choices: should the patient be treated, should more information be obtained, or should nothing be done? The authors make extensive use of clinical examples to illustrate Bayesian analysis, formal decision analysis, and basic concepts of how to evaluate the usefulness of diagnostic tests in various situations. The text is supplemented with many illustrations, useful end-of-chapter self-assessment questions, an appendix giving the sensitivity and specificity of nearly 100 diagnostic tests, and a selective annotated bibliography directing the reader to significant articles in the current literature.

**From reader reviews:**

**Douglas Dossett:**

Nowadays reading books be than want or need but also get a life style. This reading routine give you lot of advantages. The benefits you got of course the knowledge the actual information inside the book that improve your knowledge and information. The data you get based on what kind of publication you read, if you want attract knowledge just go with schooling books but if you want really feel happy read one together with theme for entertaining such as comic or novel. The [(Medical Decision Making)] [Author: Jr. Harold C. Sox] published on (November, 2006) is kind of reserve which is giving the reader unstable experience.

**Katie Johnson:**

This [(Medical Decision Making)] [Author: Jr. Harold C. Sox] published on (November, 2006) is great book for you because the content which can be full of information for you who always deal with world and get to make decision every minute. That book reveal it facts accurately using great coordinate word or we can claim no rambling sentences included. So if you are read it hurriedly you can have whole information in it. Doesn't mean it only provides straight forward sentences but difficult core information with lovely delivering sentences. Having [(Medical Decision Making)] [Author: Jr. Harold C. Sox] published on (November, 2006) in your hand like keeping the world in your arm, data in it is not ridiculous just one. We can say that no guide that offer you world with ten or fifteen second right but this publication already do that. So , this is certainly good reading book. Hi Mr. and Mrs. stressful do you still doubt that?

**Joy Rodriguez:**

Is it a person who having spare time and then spend it whole day by means of watching television programs or just lying down on the bed? Do you need something new? This [(Medical Decision Making)] [Author: Jr. Harold C. Sox] published on (November, 2006) can be the answer, oh how comes? The new book you know. You are thus out of date, spending your extra time by reading in this new era is common not a geek activity. So what these books have than the others?

**Tiffany Hernandez:**

As a college student exactly feel bored in order to reading. If their teacher asked them to go to the library as well as to make summary for some e-book, they are complained. Just small students that has reading's soul or real their passion. They just do what the instructor want, like asked to the library. They go to there but nothing reading really. Any students feel that examining is not important, boring and can't see colorful images on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this [(Medical Decision Making)] [Author: Jr. Harold C. Sox] published on (November, 2006) can make you sense more interested to read.
