Problem-Solving Exercises in Green and Sustainable Chemistry Albert S. Matlack, Andrew P. Dicks

When confronted with a problem in science, the way to proceed is not always obvious. The problem may seem intractable or there may be many possible solutions, with some better than others. **Problem-Solving Exercises in Green and Sustainable Chemistry** teaches students how to analyze and solve real-world problems that occur in an environmental context, and it encourages creativity in developing solutions to situations based on events that have actually taken place.

The problems described in this book are relevant and stimulating in learning and understanding the principles of green and sustainable chemistry. They address various aspects of the field, including:

- Toxicity
- Waste generation and disposal
- Chemical accidents
- Energy efficiency
- New policy development

The final chapter contains proposed solutions to the presented problems and provides commentaries and references to relevant literature.

This book also prompts students to become more comfortable with the idea of multiple "correct" answers to problems. It emphasizes the reality that green chemistry is about making practical decisions and weighing multiple factors that are often conflicting, thus making it difficult or impossible to apply one perfect solution to a given situation. **Problem-Solving Exercises in Green and Sustainable Chemistry** prepares students to solve challenging problems, whether as green chemists, as architects designing energy-efficient buildings, or as environmentally-conscious citizens.

From reader reviews:

Clarence Liller:

The book Problem-Solving Exercises in Green and Sustainable Chemistry gives you the sense of being enjoy for your spare time. You can use to make your capable much more increase. Book can being your best friend when you getting stress or having big problem with the subject. If you can make reading through a book Problem-Solving Exercises in Green and Sustainable Chemistry for being your habit, you can get much more advantages, like add your own personal capable, increase your knowledge about many or all subjects. You are able to know everything if you like wide open and read a guide Problem-Solving Exercises in Green and Sustainable Chemistry. Kinds of book are a lot of. It means that, science e-book or encyclopedia or others. So , how do you think about this e-book?

Christy Dennie:

The publication with title Problem-Solving Exercises in Green and Sustainable Chemistry includes a lot of information that you can find out it. You can get a lot of advantage after read this book. That book exist new understanding the information that exist in this reserve represented the condition of the world today. That is important to yo7u to be aware of how the improvement of the world. This particular book will bring you inside new era of the the positive effect. You can read the e-book on your own smart phone, so you can read that anywhere you want.

Jacob Gray:

Problem-Solving Exercises in Green and Sustainable Chemistry can be one of your nice books that are good idea. All of us recommend that straight away because this reserve has good vocabulary which could increase your knowledge in language, easy to understand, bit entertaining however delivering the information. The writer giving his/her effort to set every word into enjoyment arrangement in writing Problem-Solving Exercises in Green and Sustainable Chemistry although doesn't forget the main stage, giving the reader the hottest and also based confirm resource information that maybe you can be one of it. This great information can easily drawn you into brand new stage of crucial pondering.

Henry Heath:

In this period globalization it is important to someone to get information. The information will make professionals understand the condition of the world. The healthiness of the world makes the information quicker to share. You can find a lot of recommendations to get information example: internet, newspaper, book, and soon. You will see that now, a lot of publisher which print many kinds of book. Often the book that recommended for you is Problem-Solving Exercises in Green and Sustainable Chemistry this guide consist a lot of the information with the condition of this world now. This kind of book was represented how can the world has grown up. The language styles that writer use to explain it is easy to understand. The writer made some investigation when he makes this book. That's why this book suitable all of you.
