Bertrand Arthur William Russell, 3rd Earl Russell(1872 - 1970) was a British philosopher, logician, mathematician, historian, social critic and political activist. At various points in his life he considered himself a liberal, a socialist, and a pacifist. He was born in Monmouthshire, into one of the most prominent aristocratic families in Britain. Russell led the British "revolt against idealism" in the early 20th century. He is considered one of the founders of analytic philosophy along with his predecessor Gottlob Frege, colleague G. E. Moore, and his protégé Ludwig Wittgenstein. He is widely held to be one of the 20th century's premier logicians. Russell was a prominent anti-war activist; he championed anti-imperialism and went to prison for his pacifism during World War I. Later, he campaigned against Adolf Hitler, then criticized Stalinist totalitarianism, attacked the involvement of the United States in the Vietnam War, and was an outspoken proponent of nuclear disarmament. In 1950 Russell was awarded the Nobel Prize in Literature "in recognition of his varied and significant writings in which he champions humanitarian ideals and freedom of thought". Unpopular Essays is the now classic collection of Bertrand Russell's more controversial works, reaffirming his staunch liberal values. It is one of Russell's most characteristic and self-revealing books. Written to "combat... the growth in Dogmatism", on first publication in 1950 it met with critical acclaim and a wide readership and has since become one of his most accessible and popular books.
