The timeline of American history has always swept through Santa Fe, New Mexico. Settled by ancient peoples, explored by conquistadors, conquered by the U.S. cavalry, Santa Fe owns a story that stretches from the talking drums of the Pueblos to the high math of complexity theory pioneered at the Santa Fe Institute. This fresh presentation, 400 years after the Spanish founded the town in 1610, presents the full arc of Santa Fe's story that sifts through its long, complex, thrilling history. From the moment of first contact between the explorers and the native peoples, Santa Fe became a crossroads, a place of accommodations and clashes. Faith defined, sustained, and liberated the people. All the while, scoundrels and abusers of power elbowed their way into civic life. And who should piece together that story of the country's oldest capital city? *The Santa Fe New Mexican*, the oldest newspaper in the American West, walking side by side with the people of Santa Fe for 160 years--a long life by the standards of publishing though merely a short span in Santa Fe's timeless drama. This book was compiled from a series that appeared monthly in *The Santa Fe New Mexican* in honor of the city's 400th anniversary commemoration in 2010. It illuminates Santa Fe's enduring promise to cling to roots that are bottomless and to leap into a future that is boundless. Over 400 pages, many illustrations, timelines, index, and detailed bibliographies. Included is a Study Guide for teachers, students, and anyone interested in Santa Fe and the American Southwest.
