Critical Thinking and Writing for Nursing Students (Transforming Nursing Practice Series) Bob Price, Anne Harrington

Critical thinking, writing and reflection are core skills that nursing students are expected to develop throughout their studies. This book is a clear and practical guide to help students develop these skills. It explains what critical thinking is and how students should use it throughout their nursing programme. Throughout, the book demonstrates the transferable nature of critical thinking and reflection from academic contexts to the real practice of nursing. The 2nd edition includes a new chapter on critiquing literature, examines how caring skills are essential to critical thinking and includes a website with annotated examples of students' work.
